

PrintEase

# The Perfect Environment for Efficient Label Management

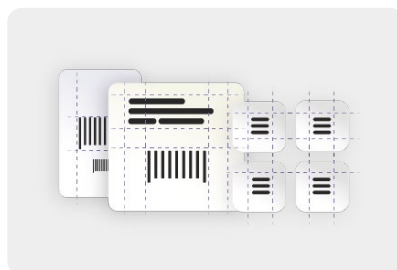

Create labels without complicated setup or training. PrintEase works with any printer and any label - regardless of manufacturer or label size.

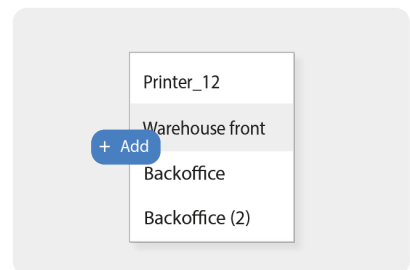

## Manage your Printers with Ease

One Label for all Printers

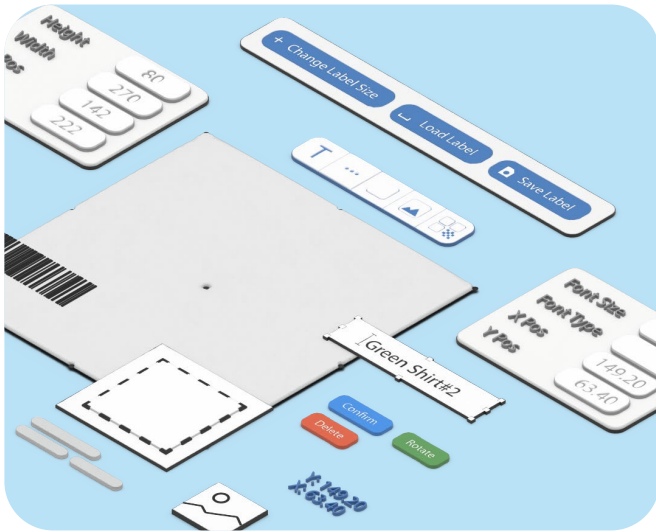

Automatic Scaling

Super Easy Management

# How Printease can improve your processes

## ACCURACY

Create your own Consistent Labels

## SCALABILITY

Accomodate your Growing Demand

## INTEGRATION

Use PrintEase with other Systems

## COMPLIANCE

Comply with Industry Standards

## The advantages of printease

### Easy Configuration

PrintEase automatically detects new printers, and adds them to the fleet. Assign printers to groups with pre-configured settings.

### Integrated Label Builder

Design your own labels with the Label Builder. Add barcodes, images, text and elements from a centralized app.

### Print Job Management

Easily distribute print jobs, both in the cloud and on-premise. Detailed reporting allows you to keep track.

### Create Profiles

PrintEase allows individual profiles and custom settings for the best possible printing experience.

### Cost Savings

Streamlined printer management leads to reduced operational costs, less maintenance and downtime.

### Focus on your Business

PrintEase allows you to focus fully on what matters the most: Running your business efficiently.
